

Details for Jan 2019 Deliverable Rejections

Reasons for rejection

```
##
##      Inaccurate information                Other
##                56                        14
##      Incorrect Approvers Not compliant with procedure
##                13                        10
## Incorrect Objective Evidence                Incorrect scope
##                8                         4
##      Insufficient traceability                Not using template
##                3                         3
##      Insufficient testing                Requirement deficiency
##                1                         1
```

Comments for reason being other

```
##
##      Not submitted as results                via email
##                7                         2
##      Acctached screen print blurry
##                1                         1
##      Missing signatures                Tracked Changes
##                1                         1
##      via webex
##                1
```

Note: on of the Rejections did have a comment
